KIDS TRY OUT HOSPITAL LIFE

Erin Smith

PENINSULA Year 10 students had a rare look behind the scenes at Redcliffe Hospital during a Careers Pathways Expo.

The aim of the expo, held in conjunction with Beacon Foundation, was to give students a headstart on a career in healthcare.

Almost 50 students from schools across the region had a chance to learn about nursing, medicine, pharmacy, oral health, allied health and were also taken behind the scenes to the kitchen, operational services and administration.

All students were able to take home information on what subjects they needed to study in Year 11 and 12 in order to pursue a career in health and tertiary courses available.
